NEW NOVELTIES IN FREESIAS

The following seven beautiful new colored freeseas are the result of years of painstaking effort by Alois Frey, who originated Gen. Pershing. These were offered last season for the first time, and have already demonstrated their great merit.

Descriptions are by Mr. Frey and bulbs offered are of his own raising.

Aurora, a large flowering yellow suffused with orange, a variety which has many admirers.

California, a large flower of bright golden yellow, extra fine strong growth and long stems; the very finest yellow freesia.

The Ornithogalum we list is not the true
Star of Bethlehem, it is Ornithogalum
umbellatum, but being known as star of
bethlehem in So. Calif, where our sales
are the largest, we have not tried to correct
the misnomer. F.M.W

Carmencita, medium sized flower of a beautiful light orange-salmon hue with buff shading on the lower petals. Long wiry stems.

Carrie Budau, a lavender pink, a great improvement over Gen. Pershing, larger flowers and heavier stems; an enormous grower and producer

Ilena, deep rosy lavender with white throat, deep orange blotch on lower petal and good stiff stems. Flowers large and very attractive.

June Michelsen, large flowering deep rose pink with light blush throat, three lower petals are veined purplish crimson with a deep yellow blotch on center petal. Good stiff stem and strong constitution. A variety of special merit.

Olivette, bright carmine red with light yellow throat, lower petals having a deep yellow blotch with crimson veins. Very profuse bloomer.

	Per 100	Per 1000
Flowering Bulbs	\$4.00	\$35.00

	Per 100	Per 1000
